## The Days In A Month.

January, cold and chill,  
Has 30 days and one;  
And slowly they seem to pass away,  
Beneath the winter sun.

Then February follows on,  
With eight and 29 more,  
Except in leap year, when one day  
Is added to the store.

Next March, with one and 30 days,  
Sweeps down upon the scene,  
With winds that drive the snow away,  
From off the crocus green.

Fair April with her showery smiles,  
And 30 days of life,  
Comes after March, with gentle rains,  
To give the flowers life.

May next upon the scene arrives,  
As Queen of Life and Spring;  
For one and 30 days she lives,  
While wild birds nest and sing.

Sweet June, with roses white and red,  
Now comes upon the scene;  
For 30 days with flowery breaths,  
She lives and smiles serene.

July with new mown hay appears,  
Like May with 31;  
And oft the nimbus clouds arise,  
And hide the burning sun.

Next, August comes with torrid breath  
And 31 full days;  
The hours are filled with sultry heat,  
From old Sol's scorching rays.

September, month of shimmering sun,  
And crickets' tuncful song,  
For 30 days with us remains—  
Her stay is none too long.

October, crisp and clear arrives,  
With leaves of red and brown,  
For one and 30 days of life,  
She wears Queen Autumn's crown.

November comes with flakes of snow,  
And blasts of chilling wind,  
For 30 days she stays and, well—  
November is unkind.

December with its Christmas tide,  
Is always to us dear,  
Her days are 31, and then  
She ends the long, long year.

—Everard A. Hayes

## PREACHERSVILLE.

Rev. Sawyer, of Brodhead, has been conducting a series of interesting meetings at the M. E. church here.

At the paragonage a few nights since an enjoyable "pound" party was given. It was a success and was enjoyed by all. This is the only "pounding" reported so far this season.

MILLIONAIRE'S POOR STOMACH.—The worn out stomach of the over fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people and they suffer far worse tortures than the millionaires unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over 35 years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station. Trial bottles 25c; regular size, 75c. At all druggists.

## A Frightened Horse

Running like mad down the street dashing the occupants, or a 100 other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none as good as Eucly's Arnica Salve. Burns, Cuts, Sores, Eczema and Piles disappear quickly under its soothing effect. 25c. by all Druggists.

The demand for big draft horses in this country at the present time is so great that the buyers are hunting up the big three-year-olds for which the city merchants and manufacturers pay big prices to get them even so young and with light work mature them up to full work.

The original penitentiary at Frankfort was built about 100 years ago, and it is a fact that for the first year after it was completed there was only one prisoner confined within its walls, and he was a horse thief. Since then it has been several times enlarged, and is now crowded beyond the rules of good health or the original ideas of the builders. At present, there are about 1,300 convicts on the rolls, and the number is now increasing slowly but surely. What a change from the days when the lone horse thief was monarch of all he surveyed inside the prison walls!—Winchester Democrat.

The May Sargent company, putting on "That Independent Young Couple," was disbanded at Frankfort because of poor business for the last several weeks.
